

JAL SKY SUITE International Boeing 777-200ER Aircraft Debuts on Tokyo (Haneda) = Bangkok Route from June 18, 2016

~ Revamped cabin interior to fulfill various customer needs ~

Tokyo June 10, 2016: Under the theme of “Designed to evoke a one-class higher feel”, Japan Airlines (JAL) announced that its fully revamped Boeing 777-200ERs named JAL SKY SUITE 777 (SS2) will debut on the international flights between Haneda and Bangkok from June 18, 2016. This newly revamped aircraft will be progressively introduced on the Haneda = Singapore route in August, and the Haneda = Honolulu and Osaka (Kansai) = Honolulu routes from next January, with plans for further expansion to the Nagoya (Chubu) = Honolulu and Tokyo (Narita) = Honolulu routes from next March. In order to provide more customers with high quality products.

Business Class will be retrofitted with new fully-flat seat “JAL SKY SUITE III” and Premium Economy Class will have the well-received “JAL SKY PREMIUM” seat which has already been introduced on other JAL SKY SUITE configured aircraft. Economy Class will be fitted with “JAL SKY WIDER” seat boasting New Spacious Economy, offering up to 10cm. more legroom than the existing seat, and a 3-4-2 seating configuration provides easier choice of seat and aisle access to meet diverse customer needs and delivers a comfortable in-flight experience.

JAL will be continuing to introduce more innovative products and services so that more customers can enjoy greater comfort onboard, under the banner “Embrace New Challenges JAL.”
