

## JAL Upgrades Free Inflight Internet Campaign on Select Domestic Flights from February 1 through August 31, 2017

**Tokyo January 25, 2017:** Japan Airlines (JAL) decided to upgrade the current 15 minutes free inflight internet campaign, to a completely free internet service on all domestic flights, which are operated by aircraft equipped with inflight Wi-Fi system. The new campaign will be available from February 1 through August 31, 2017.

During flights, our customers will be able to use inflight Wi-Fi for free and without time limitation on select JAL's domestic routes. JAL's 77 domestic aircraft have been equipped with Inflight Wi-Fi system.

Inflight video programs such as sports, gourmet, music and animation etc. are also provided on Wi-Fi equipped aircraft on domestic routes. Customers can enjoy those free programs by using their own Wi-Fi devices.

### Details of new free inflight internet campaign as below:

**Effective Period:** February 1 ~ August 31, 2017

**Applicable Flights:** All domestic flights operated by JAL SKY NEXT aircraft (\*1) (equipped with inflight Wi-Fi system)

(\*1) For more information about JAL SKY NEXT and its operating routes, please visit: [www.jal.co.jp/en/skynext/](http://www.jal.co.jp/en/skynext/)

**Details:** Customers on applicable flights will be able to enjoy free in-flight internet access. "FREE FLIGHT PASS" button will appear on the portal top page after connecting to inflight Wi-Fi on applicable flights. The internet service will be available from 5 minutes after take-off until 5 minutes before landing.

Note: This campaign will not be available for international aircraft equipped with Wi-Fi system, which are operated on domestic routes.
